STUDENT HEALTH SERVICES

VCOM students and their families are eligible to receive primary care health services through arrangements with Auburn Pediatric and Adult Medicine. The physicians at Auburn Pediatric and Adult Medicine provide primary and preventive care to all members of the Auburn community. Acute care is provided by their staff of board certified physicians, certified registered nurse practitioners, and a team of supporting colleagues. Their health care providers have access to a wide range of specialists and emergency services when necessary. They are here to serve you and are committed to maintaining high quality of care standards in a confidential, convenient, caring professional setting.

Visits for physician services require a $20 co-pay for the first six (6) visits. VCOM students who have VCOM’s insurance (Aetna Student Health) will also get one full annual physical at no fee. Expenses for services such as lab tests, immunizations, procedures, EKGs, etc. are not covered. Your insurance company will be billed for any additional services and you are responsible for those fees.

VCOM is not the purchaser or provider of these health care services and therefore carries no decision making or liability for the services provided.
