Bon Secours St. Francis Health System
Greenville, SC

Our Mission

The Mission of Bon Secours Health System is to bring compassion to health care and to be Good Help to Those in Need®, especially those who are poor and dying.

As a System of caregivers, we commit ourselves to help bring people and communities to health and wholeness as part of the healing ministry of Jesus Christ and the Catholic Church.

History of Bon Secours

The Sisters of Bon Secours were founded in 1824 to respond to the needs of those who were sick and dying in Paris by providing health care to them in their homes. Through their care, they believed that they were bringing God’s healing, compassion and liberation to those in need by helping to alleviate their suffering and bringing a message of hope and assurance that there is a God who loves them.

Awards and Recognitions

At St. Francis, we always strive to be the best at what we do. Along the way, we have been recognized by several national organizations for our quality, efficiency, and technology. In addition, many of our programs have earned accreditations from national organizations that perform in-depth audits to ensure patients receive the very best care. We are proud of our accomplishments, and are pleased to offer nationally-recognized quality care to our neighbors in Upstate South Carolina.
