MID ROTATION EVALUATION

After approximately two completed weeks on a rotation you should identify a preceptor to formally discuss your performance. At this time, while the preceptor is not required to complete a formal evaluation, you should discuss all areas of competency that will be evaluated at the conclusion of your rotation. You should also review your patient log (if applicable) with the preceptor and have him/her sign it.

Suggestions for Mid-Rotation Evaluation Discussion

Competency	Performs Well	Needs to Improve <i>(Please specify)</i>
Communication		
Basic Clinical Skills		
Clinical Problem Solving		
Knowledge		
Professional/Ethical		
Osteopathic Manual Manipulation		
Practice Management Systems of Medicine		

Preceptor Signature: _____
