Quotes from Former Students

"Great site. The hospital is not large, but this gives students the chance to work 1-on-1 with doctors and get a lot of hands on experience. The unlimited food at cafeteria was a nice touch. Housing was completely fine, not the newest house in the world, but was comfortable and the owners were very helpful and offered to do anything they could for us."

"Wytheville Hospital was wonderful to work with - very friendly and helpful staff, great free food."
